

# TELL US YOUR STORY

**The IFHS** would like to hear your family's story. Many Indiana families face incredible challenges to succeed at home schooling their children. The IFHS would like to share your story as an inspiration to others, giving them hope. A surprising number of families that contact us believe their situation and struggles are unique. We have heard similar stories over the years. It amazes them to realize they are not alone in their circumstance.

The Foundation would like to post your stories on our website and possibly sharing them with the community as we strive to share about the homeschooling movement in Indiana.

We won't be able to publish all stories at one time, but will rotate them. Please e-mail us your story. If you desire, e-mail or send a picture too. We ask that you *explicitly state that you understand the story will be used on our website and in promotions*. If you do not want your real name used, tell us that too and we will change the name when printing your story.

Statistics show the success of homeschooling. But stats don't tell the stories behind the success of students who had failed or were failed by the traditional classroom setting. The economic and logistic challenges you have faced to take control of your children's education are huge too. We know your message of triumph will inspire others!

Email us your story and/or your questions to [Info@IndianaHomeSchooling.org](mailto:Info@IndianaHomeSchooling.org).
